

A Quick Guide to Microsoft Teams Licensing Changes

Here's what you need to know about Microsoft Teams licensing changes – and the best alternative solutions to Teams.

Key Changes to Microsoft Teams Licensing

Unbundled Licensing

Microsoft Teams is now a separate purchase from Office 365 and Microsoft 365.

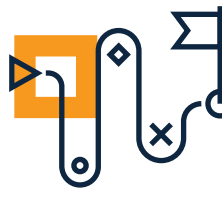

Standalone Cost

New Teams licenses cost \$5.25 per user per month.

New Tiers

New subscription tiers without Teams, such as O365 E1 and M365 E3, are available.

Implementation Timeline

Changes are effective immediately for new customers; existing customers transition upon renewal.

Alternatives to Microsoft Teams

Real-time collaboration with advanced communication features.

AI-powered communication with real-time transcriptions.

Unified communication with flexible VoIP, video, and messaging.

Instant messaging, video calling, and group features.

Encrypted, chat-based secure collaboration tools.

User-friendly, comprehensive virtual meeting and webinar solution.

Comprehensive voice, video, chat, and contact center capabilities.

Comprehensive tools for virtual meetings and webinars.

High-quality video conferencing and integrated VoIP services.

Open-source platform with communication and collaboration tools.

Streamline the process of reviewing and approving content.
